

Maldon in Bloom Latest News

Children's Easter Activity - the Maldon in Bloom team organised a children's activity session in the Town Hall during National Gardening Week, 10-16 April. This was a huge success with children of all ages coming along to paint a design on a terracotta pot and plant a seed. While this was drying, the children had an opportunity to find out more about bats, bees and butterflies by completing some of the worksheets available.

On the craft table, there was a variety of materials to design a garden which would attract bats, bees and butterflies as well as making flying bats, bees and butterflies.

Thanks, must go to the volunteers who came along to help as well as Claremont Nursery and the Oakhouse for donating materials.

Our Maldon in Bloom Entry Form for 2017 is now available online, from Maldon Tourist Information Centre or the Town Council Offices. Please enter as there are new categories giving every Maldon resident a chance to join in this local competition.
